**ABSTRAK**

Dari hasil survei awal yang peneliti lakukan pada tanggal 18 Januari 2016 di lingkungan Pasar Legi Songgolangit, pasar terlihat kotor, hal ini terjadi karena beberapa faktor yaitu sampah yang tidak terangkut habis, sampah berserakan, sampah yang menumpuk di pojokan kios pedagang, timbulnya bau, tingginya angka kepadatan lalat. Keadaan ini tentunya akan menimbulkan dampak yang tidak baik bagi kesehatan masyarakat.

Tujuan penelitian ini adalah untuk Mengetahui gambaran perilaku pedagang dan petugas kebersihan serta sarana pengelolaan sampah dalam upaya pengelolaan sampah di Pasar Legi Songgolangit Kecamatan Ponorogo Kabupaten Ponorogo.

Jenis penelitian ini menggunakan jenis penelitian *deskriptif* dengan pendekatan survey. Teknik pengambilan data menggunakan teknik random sampling. Pengumpulan data dilakukan dengan cara wawancara dan observasi dengan panduan kuesioner. Jumlah sampel sebanyak 270 pedagang, 13 petugas kebersihan dan semua sarana pengelolaan sampah. Variabel yang dinilai yaitu perilaku dan sarana pengelolaan sampah terhadap upaya pengelolaan sampah pasar. Metode pengolahan data menggunakan *analisis tabel* dengan kategori baik, cukup dan kurang.

Hasil penelitian diketahui bahwa nilai perilaku responden pedagang dalam upaya pengelolaan sampah pasar sebagian besar yaitu cukup sebanyak 155 dengan persentase 57,40%, perilaku responden petugas kebersihan yaitu cukup sebanyak 13 dengan persentase 100%, dan penilaian sarana pengelolaan sampah mempunyai nilai sebanyak 92 score yang termasuk dalam kategori cukup dengan persentase sebesar 65,71%.

Kesimpulan dari Studi Tentang Perilaku Pedagang Dan Petugas Kebersihan Serta Sarana Pengelolaan Sampah Dalam Upaya Pengelolaan Sampah Di Pasar Legi Songgolangit yaitu perilaku pedagang, perilaku petugas kebersihan, dan sarana pengelolaan sampah yang cukup.
