## ***ABSTRACT***

The basic sanitation of Islamic boarding schools that has not been managed properly can cause environmental problems. Yanabi'ul Ulum Walhikam Islamic Boarding School is an Islamic Boarding School in Surabaya with the application of basic sanitation management that has not been maximized, that causes the sanitation facilities provision problems, especially aspects of basic sanitation. The study was conducted to determine the application of basic sanitation management in islamic boarding schools based on the management function that includes planning, organizing, actuating, and controlling.

This research was descriptive qualitative research. The object of this research is the aspects of basic sanitation and basic sanitation management based on management functions.

The result study of management application on the basic sanitation management in the Yanabi'ul Ulum Walhikam Islamic Boarding School Surabaya was 32%. The percentage of the clean water supply was 30%, the healthy latrine management was 45%, the waste management was 28%, and the sewerage management was 25%.

The conclusion of this study is that the management application on the basic sanitation management in Islamic boarding school is sufficient. The suggestion is that an increase in coordination between administrators, improved human resources, improved management, improved infrastructure facilities, and implementation assistance on executive duties (santri) is required.
